# **NEW TRUSTEES AT THE CHILDREN'S MUSEUM**

July 21, 2008 (West Hartford, CT)...Three new members are joining the Board of Trustees at The Children's Museum. The new trustees:

Matthew F. Bromberg, Vice President and General Manager of Global Material Solutions at Pratt & Whitney, a United Technologies Company. His previous experience includes working as an investment banker at Goldman, Sachs and serving as a nuclear submarine officer in the U. S. Navy. He earned his bachelor's degree in physics from the University of California-Berkeley, his master's degree in mechanical engineering from the Massachusetts Institute of Technology and has MBA from the Sloan School of Management. He and his family reside in West Hartford.

Jacqueline Pennino Scheib, partner at Robinson & Cole specializing in intellectual property and technology law. She served as a law clerk to Connecticut Supreme Court Justices Richard N. Palmer and Francis M. McDonald. She is an active member of the Business Law and

Intellectual Property Section of the American Bar Association. She earned her B.A. from Franklin and Marshall College and graduated with honors from the University of Connecticut School of Law. She and her family reside in West Hartford.

Tina St. Pierre, Principal and Vice President of Finance at Landmark Partners. Her past experience includes working as a senior tax accountant at Arthur Andersen. She is active as leader in Girl Scouts, Corpus Christi Home and Family Association, and extensive community service including Junior Achievement. She received her B.S. with honors in accounting at Bryant College and has been a certified public accountant since 1992. She resides with her family in Wethersfield.

Said Elaine McDonald, Chair of the Board of Trustees for The Children's Museum, "We are very excited about the experience and commitment that these three new board members bring to the Board. They share our commitment to be a kid-sized, hands-on family friendly place focused on natural science for younger children and a primary informal science educational resource for our schools."

With its roots in science education dating back nearly 125 years, The Children's Museum was formally organized in 1927. In West Hartford, at its Roaring Brook Nature Center in Canton, and in area school classrooms, the Museum serves over 200,000 children and families annually. It includes the UTC Wildlife Sanctuary, Travelers Science Dome at the Gengras Planetarium, extensive educational programs and school outreach, teacher professional development and a wide variety of activities for children, families and senior citizens. With support from the State of Connecticut and Town of West Hartford, the Museum is in the midst of exciting plans for relocation and expansion.
