The Children's Museum Celebrates Opening Of New Color Play Exhibit

West Hartford, CT (Jan. 15, 2007)...The Children's Museum (formerly Science Center of Connecticut) opened its new traveling exhibit on Saturday, January 13. Entitled *Color Play: the Art and Science of Color and Light*, the exhibition is a vibrant and interactive learning experience for young children and will be on display until June 17, 2007.

Pictured at the Members Preview Opening are, from left to right, Edward J. Forand Jr., President and CEO of The Children's Museum; Clifford Wagner, exhibit creator, Clifford Wagner Science Interactives Inc.; Michael Splaine, Senior Sales Manager, TRUMPF Inc., Peter Grollmann, Product Manager, TRUMPF Inc.; Aileen Rosedale, Radio Disney

and, seated, “DJ Lulu”, Radio Disney. The presenting sponsor of the exhibit is the Roosa Family Foundation with additional support from The Connecticut Light and Power Company, TRUMPF. Inc., which donated a laser marking machine to the museum, Pyne Davidson Company, The Parent Planner and Radio Disney.

The Children’s Museum is committed to igniting the curiosity of young people through science and nature. In addition to the museum, the organization includes the United Technologies Wildlife Sanctuary, the Gengras Planetarium, Roaring Brook Nature Center in Canton, and The Children’s Museum Preschool, one of the oldest preschools in the country. The Children’s Museum serves over 200,000 people annually, and is the fifth oldest children’s museum in the country, and serves more people than any other Connecticut museum. For more information visit the Museum’s website at www.TheChildrensMuseumCT.org .
